- 4 Tilted position
- 5 Trendelenburg position
- 6 Remote control
Adjusts height and trendelenburg position
- 7 Head/leg plate interchangeable for full C-Arm access

Universal OP Table

Model: ST-280 Series Hydraulic Operation Table

Features:

1. Cost effective, state-of-the-art Sturdy ST Series design.
2. Height adjustable for surgeon access and comfort. At low heights can accommodate seated clinicians, such as ophthalmologists and etc.
3. The entire tabletop is designed without metal crossbars to allow for image amplification during surgical procedures.
4. **ST-280** Series design and positioning functionality allows for convenient and unrestricted C-Arm access.
5. Not only suitable for general operation but also for C-Arm scanning, cardiac catheterization and spinal surgery.
6. Orthopaedic extension tractor allows for ease of use in operations.
7. Gas-spring adjustable back plate and foot plate offer easy and smooth control.
8. Modulated accessories, with flexibility for all types of operations.
9. Plate's durability avoids distortion even after prolonged exposure to X-ray.

Specifications:

Length:	1975 mm
Width:	500 mm
Height incl. padding:	690~1000 mm (electric-hydraulic)
Lateral (left /right):	$\pm 22^\circ$ (mechanical by handle)
Trendelenburg position:	$\pm 22^\circ$ (electric-hydraulic)
Back plate up/down:	$+65^\circ \sim -30^\circ$
Leg plate up/down:	$+15^\circ \sim -100^\circ$
Head plate up/down:	$+90^\circ \sim -90^\circ$
Base brake:	Mechanical by foot-pedal
Power supply:	AC 110/220 voltage 50/60 Hz
Power consumption:	500 VA
Bearing weight capacity:	250 kg

Standard Accessories:

1. Screen frame	1 set
2. Head plate	1 set
3. Arm board	1 pair
4. Foot plate	1 set
5. Mattress	1 set
6. Power cord	1 set
7. Remote control	1 set
